COLLABORATIVET

NEWSLETTER

Introducing CollaboratiVET Project

CollaboratiVET is a project aimed at integrating the flipped approach into VET (vocational education and training) institutions. Our goal is to enhance the skills and competences of VET teachers to align with 21st century skills, and to maximize the capacity of each VET student through cross-fertilized knowledge.

By doing so, we aim to increase the attractiveness of VET and reduce the number of dropouts.

● Project Details

Erasmus+ KA220-VET –
Cooperation partnerships in
vocational education and
training

Duration: 09/2022 - 09/2024 (24
months)

Countries: Germany, Greece,
Spain, Denmark, Ireland

Kick-off Meeting

CollaboratiVET Kick-off Meeting in Brussels, Belgium

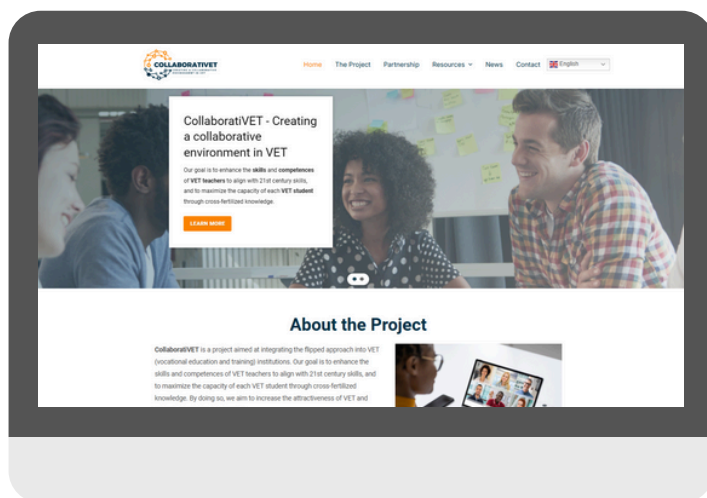

We are excited to announce the launch of the CollaboratiVET project, led by the European Association of Institutes for Vocational Training (EVBB), aimed at transforming Vocational Education and Training (VET) in Europe. The project's kick-off meeting was held in Brussels on 15th and 16th December 2022, bringing together European partners to set the groundwork for this transformative initiative.

Launch of the official CollaboratiVET project website

We are delighted to announce the launch of the official CollaboratiVET project website, which will act as a comprehensive hub for resources, updates, and insights on our mission to revolutionize VET education. Explore how our innovative flipped classroom approach is shaping the future of teaching and learning across Europe.
